Flying Fisherman® Adds New Cove to Eyewear Collection

Islamorada, Florida Keys- The **Cove** is one of six new styles in the Flying Fisherman® Action Angler Eyewear Collection for 2015. The medium-fit, square polycarbonate frame is designed with the serious anglers in mind, with lightweight, full coverage frames for optimal polarized viewing, and non-slip nose and temple pads, they offer great functionality both on and off the water.

Available in November 2014, the **Cove** will be featured in several frame/lens colors: Matte Crystal Navy/Icy Blue Mirror, Matte Crystal Navy/Smoke, the very popular Crystal Clear/Icy Blue Mirror, and Matte Crystal Bronze/Amber. In addition to Comfort Grip-Non-slip nose and temple pads that insure a stay-put fit, all Flying Fisherman® Polarized AcuTint™ lenses eliminate glare and enhance color contrast, without distorting natural colors. The enhanced visual sharpness and eye comfort adds to fishing productivity and maximizes the overall outdoors experience for anglers and water sports enthusiasts, while blocking 100% of harmful UV rays. MSRP is only \$24.95 to \$29.95.

The Cove is one of 24 styles that make up the Flying Fisherman Action Angler Sunglasses Series. For more information on Flying Fisherman® products, along with customer testimonials, a dealer locator and more, go to www.flyingfisherman.com.
