## **Flying Fisherman® New Cayo Sunglasses For 2015**

*Islamorada, Florida Keys.* **Cayo** means Key in Spanish...as in Cayo Hueso and Key West, and the Florida Keys, the sportfishing capital of the world, is where Flying Fisherman® sunglasses have been developed since 1985. Where polarized lenses are a must, to block reflected glare, enhance the angler's ability to read the water and spot fish, and provide UV and impact resistant protection. The new **Cayo** Sunglasses do that and more with polarized triacetate lenses that are optically clear, resist fogging, shrinking and scratching and block 100% of UV rays. The polycarbonate frames feature a padded brow insert, and non-slip nose and temple pads for a stay-put fit on or off the water. Frame and lens colors are Matte Black/Smoke, Matte Black/Blue Mirror, Matte Black/Yellow-Amber and Matte Crystal Brown/Green Mirror, at an MSRP of \$24.95 - \$29.95. Great looking style, with great fishability.

The Flying Fisherman® Polarized, AcuTint™ lens coloring system eliminates glare and enhances color contrast and visual sharpness, adding to fishing productivity and maximizing the overall outdoors experience for anglers and water sports enthusiasts.

More information on Flying Fisherman® products, along with testimonials, a dealer locator and more, are available at [www.flyingfisherman.com](http://www.flyingfisherman.com).
