FLYING FISHERMAN

REMORA JUNIOR SUNGLASSES

The Flying Fisherman Remora style gives junior anglers a fun new way to see below the water's surface while protecting their eyes from harmful UV rays.

The crystal-green frame wraps around for maximum coverage with grip-tip temples, and feature Acutint smoke lenses with the same glare reduction and 100 per cent UV protection as Flying Fisherman's adult polarised shades, but made to fit young faces from approximately ages two to 10.
