### FLYING FISHERMAN

#### HELM SUNGLASSES

New for 2016 in Flying Fisherman's Action Angler Sunglass Collection, the Helm is a medium-fit frame with a sleek wraparound design that'll have anglers looking good and seeing more fish.

They feature a crystal gunmetal frame with a matt-black backing inside, extra-wide temples to block annoying side glare, scratch-resistant Triacetate (TAC) AcuTint polarised lenses and a one-year warranty.
