FLYING FISHERMAN DOWNSEA SUNGLASSES

FLYING FISHERMAN

DOWNSEA SUNGLASSES

The Flying Fisherman DownSea offer unbeatable polarised protection in a large fit, lightweight TR90 frame. They feature co-injected, non-slip nose pads and temple pads for a stay-put fit, even when wet.

Virtually indestructible, polycarbonate RhinoLenses™ give shatterproof eye protection from flying hooks, lures, sinkers and other dangers that anglers encounter, plus sharpen optical clarity, reduce eye fatigue and block 100 per cent of harmful UV rays.

Frame colours are matte black with smoke, blue mirror, or vermilion lenses, and matte bronze with amber-gold mirror lenses.
