## **Flying Fisherman® Adds Six New SunBandit™ Designs**

*Islamorada, Florida Keys – July 2014.* Protective headwear is quickly becoming a “must have” for anglers everywhere and most often worn as a face mask for protection from the sun, wind and harmful VU rays. The Flying Fisherman® SunBandit™ Collection, a popular choice for anglers looking for that added sun protection, will add six new designs for 2015. The multi-purpose headwear can also be worn as a headband, cap, backlava, neckerchief, hair tie and more. The tubular bandanas are made of seamless microfiber polyester which has the highest UV protection of any fabric, are extremely lightweight and breathable, wick moisture and dry quickly.

New SunBandit™ designs for 2015 include three marine animal skins -- Strawberry Grouper, Yellowtail Snapper and Gator -- along with The Bait Ball, Diamond Plate and Largemouth. The new patterns give wearers some colorful new options for their collection.

More information on the full range of Flying Fisherman® products, along with testimonials, a dealer locator and more, are available at [www.flyingfisherman.com](http://www.flyingfisherman.com).
